## NOTES:

1. IMPORTANT! The UPC tour is provided for informational purpose only and anything said or described on this tour is only for that purpose, and proposals should be based on the RFP (and the supporting Technical Library). The touring staff (with support from CH2HILL) will only provide information for clarification only. All other questions must be submitted in writing to DESC for an official answer, which will be shared with all interested parties.
2. The ( # ) denotes the location on the Tour map.
3. The **time** represents the estimated arrival time to each site being visited. The **allotted** time is the estimated period of stay at that site. All times are in military 24-hour format. Travel time is accounted for, but is not shown.

# UPC TECHNICAL TOUR <sup>1</sup>

21 August 2002  
(Natural Gas and Water/Wastewater Distribution System)
